

CUSTOM CLUB BUILDING AND REPAIR AT TGR

The Golf Room is happy to help your clubs be fit like a glove. We want to have your clubs work for your and not against you. Properly fit and built clubs can have a dramatic impact on ones performance. Unfortunately, many times after you have been fit and clubs have been “custom” ordered from club manufactures they show up incorrectly. It is our job to make sure, the clubs you were fit for are the clubs you are playing. Here are some of the tour caliber tools we have to help dial in your clubs specs.

- Mitchell Frequency Meter
- Mitchell Signature Angle Machine
- Mitchell Tour Gauge Putter Machine
- Custom Wedge Grind Machine
- Custom Club Stamping

The following services are offered by our repair shop:

- Gripping \$3/club
- Loft & Lie Adjustments \$5/club
- Re-shafting All Types of Golf Clubs \$25/club
- Extending Length \$12/club
- Shortening Length \$10/club
- Swing Weight Adjustment \$5/club
- Hotmelt Club Head \$30/club
- Custom Wedge Grind \$30/wedge
- Custom Stamping \$5/char
- Save Grip \$3/club
- Save Shaft \$10/club

At The Golf Room, we also can get our hands on just about anything, but have a special partnership with the following brands:
